I'm a collaborative Software Developer experienced in building clean, responsive and accessible web applications. Comfortable in an agile environment, working closely with UI/UX designers to combine function and form and producing a pixel perfect product. I'm most passionate about learning, problem solving and clean design. Always seeking the opportunity to level up and work with great people on great projects.

SKILLS

Front End	Back End	Frameworks	Other
HTML	Node	React	Git
CSS/SASS	MongoDB	Vue/Nuxt/Vuex	Github
JavaScript	MySQL	Tailwind	Jira/Bitbucket
		Jest	Adobe XD

PROFESSIONAL EXPERIENCE
