

Nick Lal

Front End Developer

Vancouver, B.C.

Phone: 778-513-9590 | Email: nlalkta@gmail.com

LinkedIn: [linkedin.com/in/NickLal](https://www.linkedin.com/in/NickLal) | Github: github.com/nlaldev | Portfolio: nicklal.dev

I've always been interested in learning what it takes to make something look and function a certain way- this led me to pursue coding. Front End Developer passionate about learning, solving problems and clean UI/UX design. Always seeking the opportunity to level up and work with a great team on great projects.

SKILLS

Front End	Back End	Frameworks	Other
HTML	Node	React	Git
CSS/SASS	Express	Vue/Nuxt	Github
JavaScript	MongoDB	Bootstrap	Jira
		Tailwind	

PROFESSIONAL EXPERIENCE

Canada Drives - Front End Developer

NOV 2020 - PRESENT

- Implementing and enhancing features to our rapidly-growing e-commerce platform with Vue
- Increased completion rate by 36% during first sprint in May 2021 for <https://www.springfinancial.ca/apply/personal-loans> by revamping application experience and UI

PROJECTS

Greetings

NOV 2020

<https://nlaldevgreetings.netlify.app/>

Wanting to practice how to make authentication and database connection all come together, I decided to seek inspiration and re-create a social media application where users can register, login, create a post as well as comment on and like other users' posts Built with React.js, Semantic UI, Express.js, Apollo, GraphQL and MongoDB.

Cleanfolio

SEPT 2020

<https://cleanfolio.netlify.app/>

After re-building my portfolio site, I decided to make my format available to other developers. This is my way of giving back to the development community- by inspiring others and giving them a template to work off of. Built with React.js and SASS.
