

Nick Lal

Software Developer

Vancouver, B.C.

Phone: 778-513-9590 | Email: nlalkta@gmail.com

LinkedIn: [linkedin.com/in/NickLal](https://www.linkedin.com/in/NickLal) | Github: github.com/nlaldev | Portfolio: nicklal.dev

I've always been interested in learning what it takes to make something look and function a certain way - this led me to pursue coding. Passionate about learning, solving problems and clean design. Always seeking the opportunity to level up and work with great people on great projects.

SKILLS

Front End	Back End	Frameworks	Other
HTML	Node/Express	React	Git
CSS/SASS	MongoDB	Vue/Nuxt	Github
JavaScript	MySQL		Jira
			Adobe XD

PROFESSIONAL EXPERIENCE

Canada Drives - Software Developer

NOV 2020 - PRESENT

- Implementing and enhancing features for our rapidly-growing e-commerce platform with Vue
- Increased customer completion rate by 32% in May 2021 by revamping application flow and UX/UI for consumer lending

PROJECTS

Cleanfolio

SEPT 2021

<https://cleanfolio.netlify.app/>

My way of giving back to the developer community - by building a clean and simple portfolio site template for others to get inspiration from. Built with Vue and SASS.

Greetings

NOV 2020

<https://nlaldevgreetings.netlify.app/>

Wanting to learn how to combine authentication and database queries, I built a simple social media app where users can create an account, authenticate and create/delete and comment on posts. Built with React, Semantic UI, Express, Apollo, GraphQL and MongoDB.
